ESTABLISH MILITARY COURT TO TRY THE SLAYERS OF DOLLFUSS; VON STARHEIMBERG TAKES HOLD

Vice-Chancellor Flies From Italy To Take Over Provisional Leadership From Kurt Schuschnigg, Acting-Chancellor; Heimwehr Members Are Granted Amnesty; France To Take No Action

By ALFRED TYRNAUER, I. N. S. Staff Correspondent

VIENNA, Austria, July 26—Establishment of a military court to try the slayers of Chancellor Englebert Dollfuss was approved by the Austrian cabinet today. The cabinet council was presided over by Prince Ernst Rudiger VonStarheimberg, leader of the Fascist Heimwehr and Vice-Chancellor in the Dollfuss ministry, who took over provisional leadership of the cabinet from Kurt Schuschnigg, acting chancellor.

Prince VonStarheimberg dashed here by airplane from Italy to be present at the momentous session of the cabinet. There will be no appeal from the decision of the military court which will try the killers of the Chancellor, it was decided. Whatever sentences the military court imposes will be final and, it was expected, will be carried out without delay.

The Cabinet also approved the proposal made by VonStarheimberg to grant amnesty to all members of the Heimwehr who are imprisoned for participation either in the fighting last February when the Socialists made an attempt to overthrow the Dollfuss regime, or in yesterday's fighting. Amnesty, in fact, was granted all members of the Heimwehr under arrest for any offense.

This action, liberating all members of Prince VonStarheimberg's Fascist "army" which was Chancellor Dollfuss's most powerful support, was regarded an indication of the dominance of Prince VonStarheimberg in the present situation. His presiding at the cabinet meeting instead of Schuschnigg was regarded by some observers as an indication of his eventual succession to the Chancellorship.

PARIS, France, July 26—The French Government, for the moment, is holding aloof in the Austrian crisis and will make no protest to Germany or take other positive action. This much International News Service learned today at the foreign office where secretaries who had kept vigil until nearly midnight were back at their posts at an early hour.

The feeling here is that popular indignation against the Nazis in Austria caused by the assassination of Chancellor Dollfuss, is sufficient to keep the Nazis in hand for the present and that resentment there will prevent Germany-Nazis from trying to take advantage of the disturbed situation.

Meanwhile the French government is keeping in close contact with the governments of Great Britain, Italy and the Little Entente. The French would like to view the Dollfuss affair merely as an isolated case of assassination, but also emphasized the fact that if the Nazis attempt another coup, and it succeeds, the situation would be very serious and a course of action against Germany and Austria would have to be decided upon immediately.

VIENNA, July 26—(I.N.S.)—Dollfuss is dead. The Austrian authorities promised immunity to the Dollfuss murderers but today they took back the promise and Dollfuss will be re-venged.

The government now feels strong enough to rescind the agreement to permit the 142 Nazi insurgents who held Dollfuss and members of his cabinet captive to go to Germany under free passage.

The insurgents surrendered under this promise but now the government has announced that the free passage was guaranteed on condition that no member of the government was killed.

Now the government indicates it will hang the actual assassin of Dollfuss and already the police have taken preliminary revenge on the prisoners.

The entire band of insurgents were taken under heavy guard to the police barracks on Morocco street and there turned over to police shock troops. Each Nazi was then stripped to the skin and given what the Austrians call a "massage." This Central-European third degree corresponds more or less to the treatment employed by Nazi storm troopers in concentration camps.

Three Nazi prisoners were singled out among the 142 taken to police headquarters. They are expected to be condemned to death.

Austria as a whole is quiet, martial law compels the closing of all restaurants, hotels and cafes at 8 p. m. Kurt Schuschnigg, Dollfuss's best friend and his minister of education, is the new Chancellor of Austria.

This is the most tragic end to the most fateful day this unhappy country has experienced since Hitler came to power in Germany and sent a wave of brown terror over Central Europe. Not only the independence of Austria but the peace of Europe hung on one man's nerve.

THE PRICE OF A MANAGED ECONOMY

By FRANK KNOX

Editor and Publisher of the Chicago Daily News

"Managing" Capital and Labor" is the title of the third of a series of articles written upon the subject "The Price of a Managed Economy" by Frank Knox, editor and publisher of The Chicago Daily News. These articles are being published daily in the Courier.

ARTICLE THREE

"MANAGING" CAPITAL AND LABOR

Rome, Italy, May 18.

The American type of popular democracy is built upon certain inalienable rights of the individual, including the right to control one's own labor, and the similar right to control one's own property. Compulsory labor is forbidden in America, and security of personal property is guaranteed. These rights were dearly bought and have been precious preserved.

Italians also once enjoyed these rights. What has become of them under half a dozen years of managed economy? How has the regimentation of industry affected Italy's working classes?

The type of labor union found in America, and formerly in Italy, no longer exists here. It has been supplanted. There is only one syndicate, or union, for each trade. A worker is free to join or not, but he must pay dues to the syndicate whether he joins it or not. His work is completely regulated by it, and members of the union are always given preference in the awarding of jobs. So this alleged right to abstain from union membership is merely freedom to starve. Membership is, in effect, compulsory.

Conditions of work and wages for all Italian workers are fixed by collective contracts negotiated between the employers and government-appointed officials of the syndicate. A worker has no voice in the choice of his representatives, and no control over the decisions reached. The right to strike has been abolished. Labor controversies and disputes are handled on behalf of the workers by government-appointed officials of the syndicate. They determine whether the disputes can be referred to arbitration. The arbitrators are government officials.

If out of a job, an Italian worker cannot seek employment on his own. He must do so through the official employment bureau, which is being rapidly extended throughout the country, and which will exercise a complete monopoly of employment. An idle worker may apply for a job only in the trade or craft to which he belongs, and jobs are filled by a strict rule of seniority. The unemployed worker is prevented also from moving from one place to another in search of work; especially from the small towns and villages to the large cities. If he is found without work in some town other than his own, he may be sent back home. He is deprived of choice of movement in his search for work.

So much for the Italian workingman. What of the employers of labor? Is capital less free to create employment?

Credit, the lifeblood of industry, is now monopolized by government-controlled holding companies, or investment trusts. These trusts are supplied with capital by the government, which lends money to industry; the trusts sell their own trust certificates to the public. Their financial policies are strictly regulated by the state. No business can borrow money from these trusts without government approval.

A definite check is put upon the expansion of every plant and every industry. Government permission is required for the construction of branches of an established concern, or the construction of new factories.

An employer has no choice in the selection of his operating personnel. He must accept the people sent to him by the

PERKASIE TO RAISE \$1500 FOR SILK FIRM

Will Pay Expenses of Moving Company There From Paterson, N. J.

WILL EMPLOY 62 PEOPLE

PERKASIE, July 26—Perkasie business men and workers will make every effort to raise the required sum of money to bring the proposed new silk manufacturing company to this community from Paterson, N. J.

This decision was made at a special meeting of the Perkassie Chamber of Commerce, after a highly favorable report had been made by the committee which investigated the standing of the concern.

John Sprekel, Perkassie editor and magistrate, was appointed chairman of the committee to solicit funds to aid in bringing the new concern to town. He will appoint his staff of aides today.

The report of the committee brought a complete reversal of opinion in the minds of many in Perkassie, who were not inclined to look favorably on the proposition set forth by the Paterson concern. Some stated flatly that they were not interested in any plan which called for the community making a cash donation to an outside manufacturer, as an inducement.

The concern had, in communicating with the borough on the plan of moving to the North Penn town, stated that it could locate its plant there provided the community furnished a sum of \$1,500 for "moving expenses." The cash inducement suggestion met with small favor at first.

BURLINGTON MAYOR TO FACE ASSAULT CHARGE

Hearing is Result of War Against the Number Racket In Town Across River

TRIAL TOMORROW EV'G

BURLINGTON, N. J., July 26—The Mayor of this city is to be given a hearing tomorrow night before Justice of Peace David J. Dugan on the charge of assault and battery.

The charge has been preferred by Roy Robertson, 210 St. Marys street. It is stated by Robertson that Mayor Thomas J. Johnson entered the garage of Edward Super, High street, Saturday afternoon, and put his hand in his pocket, forcing him to reveal the contents of his pocket without reading a warrant.

Mayor Johnson is conducting a drive against number racketeers here, and Robertson asserted that he was attempting to find evidence against him. The hearing was originally scheduled for tonight, but was postponed until Friday in order to allow the Mayor to prepare a defense. City Solicitor Thomas Begley and Alexander Denbo are defending the charges against Mayor Johnson.

Philadelphia, July 26—Harbor police today were dragging the Delaware river for the body of an unidentified elderly man who leaped from the deck of the ferry Salem into midstream. The ferry stopped for 20 minutes and lowered two life boats but the suicide could not be found. Deckhands on the Salem said the man had re-crossed the river eventually trying to "work up courage." The suicide was about five feet eight inches tall and weighed about 160 pounds.

YOUNGEST TOWNSHIP IN BUCKS COUNTY LAYS ITS CLAIM TO FAME THROUGH FAMOUS "RINGING ROCKS" WHICH PRESENT AN INTERESTING GEOLOGICAL STUDY

Bridgeton Township is Off-Spring of Nockamixon; Organized in 1890

VOTED ON THE DIVISION

Triassic Belt Extends From Hudson to Maryland; Parallels Mountains

The township of Bridgeton, the youngest in Bucks County, lays claim to fame in this locality through its famous "ringing rocks" which present an interesting geological study.

Bridgeton has an interesting history, being the child of Nockamixon, and organized in 1890. The first step to split from Nockamixon Township was taken at the November term of Quarter Sessions Court in 1889 when a petition was presented asking that the parent township be divided into two.

There was some opposition to this division so the court ordered an election on March 25, 1890, which resulted in 250 votes for division and 150 against.

The township now has a population of about 1,100. The only village in the township is the one bearing the same name, Bridgeton, located on the right bank of the Delaware River, opposite Milford, N. J.

A post office was established there in 1830, and given the name of "Upper Black Eddy," with David Worman being appointed the first postmaster.

The name was taken from the name of Black, a boatman, and applied to an eddy or backwash which occurs in the Delaware at this place, a favorite place for the huge lumber rafts to tie up over night in years past when scores of rafts piled down the stream each year.

The post office, which was first located at what is now the Eddy Hotel, soon became an important exchange place for the mails on the Easton-Philadelphia stage coach line. The present postmaster is John E. Martin, who assumed charge of the office in May, 1929. While the correct name of the town is Bridgeton, the village is usually spoken of as Upper Black Eddy, the name given to the post office.

The oldest house now standing in the township was built about 1775 by

STATE AGENTS RAID TWO FARMS IN COUNTY

Both Are Said To Belong To Dominic Kay, Morrisville Contractor

IS HELD UNDER BAIL

State Liquor Control Board agents again visited Bucks County yesterday.

Two farms said to belong to Dominic Kay, well-known Morrisville contractor, were the objects of separate but simultaneous raids. Alleged liquor making materials were seized at both places, one in Wrightstown Township, near Newtown, and the other on West Trenton Avenue, Morrisville, on the old Lincoln Highway.

Officers of the State Liquor Control Board who made the raid on the Wrightstown farm say they found Kay working in the fields. He was later released in \$1,000 bail for a further hearing before Justice of the Peace W. Carlisle Hobensack at Doylestown.

At the same time Federal agents raided the West Trenton Avenue farm and arrested a man working there who gave his name as Tito Bono, of Hudson street, Trenton. Bono, who stated that Kay was the owner of the farm, was held in \$5,000 bail at a hearing before United States Commissioner Walker in Philadelphia.

According to police, four vats of 2,500-gallon capacity, filled with sugar mash, 75 gallons of finished liquor and elaborate equipment for manufacture were found in the house at the Wrightstown farm. William D. Mock, said to reside on the farm, was also arrested there. At the West Trenton Avenue establishment, Federal agents found a 1,000-gallon still, 350 gallons of alcohol and 1,000 gallons of high-powered wine.

Adjoining the West Trenton Avenue farm is an incinerator owned by Kay, where he disposes of the garbage which he collects in Morrisville. The odors of the still operations were screened by the nearby incinerator, authorities stated. Kay also owns several gravel pits near Morrisville and Bristol.

Kay denied all knowledge of the still being on the Wrightstown place when he was arrested.

CIRCLE TO MEET

The Hope Circle of Zion Lutheran Church will meet Friday evening at the home of Mrs. Frank Weik, Swain street.

STREETS AND CREEK BEING IMPROVED BY AUTHORITIES

Much Municipal Work Now Being Pushed To Completion

USE WASTE MATERIAL

Labor Furnished by Those Owing Delinquent Water Rents

Municipal improvements of a constructive nature are being consummated here in which the borough authorities are endeavoring to get the maximum results for the least expenditure of monies.

Ten streets within the borough are being improved, either throughout the entire length, or a portion thereof. A natural water-course running through the borough is being cleaned and improved, and it is hoped that the improvement will be permanent to a great extent.

Waste material taken from some of the streets is being used as a base on others, and this is cutting down the expense of the street improvement. Labor for the street work is being furnished by those owing delinquent water rents prior to 1933.

The Pennsylvania State Highway Department has started the work of removing the rails and ties of the Trenton, Bristol and Philadelphia Railway Company, from Otter street, and will continue this work along Mill and Radcliffe streets. As the rails and ties are removed from the center portions of these thoroughfares, and the black top road material also removed, this material is being utilized as a base on other streets which are to be built up and resurfaced. The crown has been removed from that section of Lafayette street extending from Pond street to the P. R. R. tracks. This material is also being utilized as a base on other thoroughfares. New stone will be used for the top surfacing for the portion of Lafayette street which is being improved.

Cleveland street, Hayes and Mifflin streets, and Farragut avenue, are all being rebuilt. The work on Farragut avenue is being confined to that portion of the road-way extending from the section which is concreted to the curb line. Wood street is to be improved from Adams Hollow Creek to Monroe street, and Taylor street from Pond street to Radcliffe street. The borough will continue the improvement of Beaver street from its intersection of Mansion to the borough line.

Cedar street may also be included in the program extending west from Lafayette street. The streets mentioned are all on the program for improvement, and work has already been started on a number of them. Whether or not all of them will be done just now depends upon the amount of basic material obtained in the improvement of other streets.

That portion of Radcliffe street, extending from Adams Hollow Creek to Green Lane, between the concreted portion and the curb line on the west side, is to be improved by the State Highway Department. Property owners are asked to have curbs and gutters set.

A crew of 50 men under an LWD project is pushing to completion a thorough cleaning of Adams Hollow Creek, and the building of dry retaining walls along this water-course. The work done along the creek is the most extensive ever attempted here, and this water-course will be in excellent condition when the work has been completed. Residents along the creek are asked to co-operate with the borough authorities in keeping this stream clear of debris and obstructions. It is expected that the work will be completed by July 31st, and an appeal is made to the civic consciousness of the nearby residents to see that this stream is not used as a depository for refuse.

Activities Announced For Bethel A. M. E. Church

Members of the Stewardess Board of Bethel A. M. E. Church are sponsoring a garden party on the Bethel Church lawn today.

Tomorrow afternoon and evening the union Vacation Bible School will conduct its closing exercises. The school has been conducted by the two Negro churches of the borough. The public is invited to attend. The program will consist of a pageant, drill and orations. The dresses made by the girls during the school periods will also be on display. A competition drill will be held on the lawn after the exercises.

The annual Summer supper will be served at the Bensalem church on Saturday.

Mrs. Harry McMullen, Mill street, is making a several weeks' stay at Seaside, N. J. Miss Anna McDonald, Mill street, has been in Seaside several days this week visiting Mrs. McMullen.

THE RESPONSIBILITY

Before venting his fury upon foreign newspapers for publishing what he termed inaccurate reports of recent events in Germany, Joseph Goebbels, minister of propaganda, might have given a little time to trying to see how much of the responsibility for this should rest upon the Hitler government.

Herr Goebbels did not attack the American press or American news agencies, which seems to indicate that the reports carried in American newspapers gave a generally accurate picture of conditions. Either this is the case or the minister for political reasons, decided it would be better policy to overlook American newspapers in voicing his criticism.

From the accounts of the "revolution" and of how it was "crushed" as read by Americans, it is hard to see how other foreign newspapers could have deliberately added much horror to their accounts of conditions. The impression gained here was that the dictator ruthlessly slew former friends and enemies alike in a mad desire to let the world know that he still was boss. Convincing evidence yet is lacking that any conspiracy of major proportions existed or that any organized revolutionary movement actually got under way.

ECONOMIC INDEPENDENCE

Can the United States do business and employ labor fully, if it maintains economic independence from the rest of the world? Can we make a comfortable living by supplying our own needs, regardless whether foreign peoples buy our goods?

It is said we must get back the large foreign trade we have lost, before we shall have all our people at work. And yet the present tendency in every important nation, is for each nation to try to create an economic independence, in which it lives simply by supplying its own needs.

Even in the boom days, our exports to foreign countries were only about 10 per cent. of our production. There is a vast potential business in those foreign countries, which all desire our products, but now they are too poor to pay for them. Some day they will be able to buy them. For the present, the home market is by far the more important, and our biggest gains will come from developing that market.

The nations can live by supplying their own needs. But they are closely tied together, and the influences that shake one country shake all of them. If foreigners become alarmed about American conditions, they rush to sell American securities, which makes financial trouble for us. We need such international agreements as shall stop the evil of fluctuating currencies and create sound banking conditions.

Speaking of the hard-boiled, the only animal that fears none and commands deference from all is the skunk.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sick and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only moon the bowels and a mere movement doesn't get at the cause. The reason for your downcast mood and feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

This bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Beware of a substitute. 25c at drug stores. ©1931 C. M. Co.

When she had gone, Mark sighed deeply and lit a cigarette. "A strange request from a sister, wasn't it?" he said. "I wonder if she's hiding any family skeletons."

"That was a noble oration about Joe," Mark said. "I doubt that it was your real reason for refusing to quit."

"Who knows?" Mark said. "I don't. I couldn't tell you how much truth there is in it and how much rationalization." He grinned. "Anyway, I'm still on the job, and with a little more information."

"It didn't seem to me your attempt to pump her was very successful."

"That's because you don't ever hear what people say in front of you," Mark said. "Vail's sister hasn't any idea how helpful she was."

He seemed disinclined to explain and I tried to prod him.

"That record's a blind alley," I said. "Glendening copied the words. He thought there was some secret significance in them."

"A message in code, I suppose," Mark said scornfully. "No, it's not quite as obvious as that, but it did mean something. It was the theme song of Vail's marriage. He must have been infatuated to let as poor a pianist as his wife accompany him."

Schnader To Speak At Lock Haven Tomorrow

Attorney General William A. Schnader, Republican Nominee for Governor, will deliver addresses this week in both the eastern and central sections of the state.

On Friday, July 27, he will address business men and local leaders at a luncheon tendered by the Rotary Club at Lock Haven, Clinton County. Later in the day he will speak at another meeting at State College.

Speaking at a basket picnic held by members of the Cumberland County Republican Committee at Williams Grove, he urged "the use of some remedies intelligently applied" instead of experimental nostrums from the doctors at Washington to cure the ills of agriculture in Pennsylvania.

"In its agriculture situation as in other ways, Pennsylvania is different from most States," he said.

"In Pennsylvania our home market is our best market. I am for increasing that market by using every practical means to increase the buying power of the business man, the worker, and all other Pennsylvanians. Improved business conditions and practical efforts on the part of the State to increase employment will help achieve that end. I pledge myself to strive for those goals.

"Equitable assessment of farm property is a crying need. If I am elected Governor, I want to improve that condition. I do not believe it can be remedied by further centralization of power in Harrisburg. It can be helped by home rule. You know I am for greater home rule. I am for State help but not State autocracy."

In an address to the Council of Republican Women of Perry County, Mr. Schnader described the rights and needs of women and girls in industry as a primary part of his labor platform.

"The labor of women and girls in the industries of Pennsylvania should not be sweated," he said. "The operatives should not be oppressed. You Republican women may be assured that I am an enemy of that type of industry that is known as a sweatshop."

Referring to the immediate future in Pennsylvania the Attorney General called on the women to respond to the needs of the State in the same spirit that they have shown throughout the depression.

"Many of you are descendants of the pioneer women, who, shoulder to shoulder with their husbands, won a wilderness and laid the foundations of a state," he said.

"Cardinal qualities of those women were courage and independence. They had the courage to brave dangers and endure hardships for the sake of an ideal. They had the independence of mind which enabled them to stand for what they believed to be right."

Mr. Schnader cautioned his hearers not to be misled by the promises of inexperienced theorists.

"Today we hear many high-sounding but empty phrases which tend to mislead the unthinking and those lacking in independence. I urge you to give such phrases the acid test of independent analysis. You believe in the Republican Party. Do not let that belief be shaken by mere words and promises."

Perkasie To Raise \$1500 For Silk Firm

Continued from Page 1

was sent to Paterson to investigate and make a report. The investigation covered the firm's equipment, payroll and its financial condition and found all to be excellent.

Rev. C. B. Weaver, a member of the committee, who is president of the First National Bank of Perkasie, said that the vice-president of the firm's bank gave the company the best of recommendations. Thomas Wall, a silk worker familiar with the mechanical end, said that the firm was very well equipped.

It was found that the mill at Paterson employed sixty-two people, and the last two weeks' payroll showed pay checks ranging from \$34 to \$49.

It was conceded by the committee that moving the plant would cost at least \$1,500. Officials of the company said that they did not want to receive any of the cash themselves, but asked aid in meeting expenses, with someone else handling the fund that Perkasie raised.

Members of the Chamber of Commerce agreed that this proposition was fair enough, and voted to take it up. The money raised by Perkasie will be paid direct to the truckers who move the equipment, and to a local contractor who will be hired to make the necessary alterations to the wiring at the building into which the new company plans to move. The re-vamping of the wiring will be a considerable job, it is pointed out.

The solicitation for funds among the public in Perkasie is beginning at once. Mr. Sprekel said this morning that he would try to reach everyone,

in that all will benefit through the addition of the new plant to the community's industries. Silk workers who will be especially benefitted, will be asked to contribute as well as business men.

The new firm, whose name is not revealed, manufactures broad silk. There are already two mills in Perkasie making this product, and there are many silk workers living there. Some of these are out of work, and some are working only part time.

TEXAS HIT BY HURRICANE

San Antonio, Texas, July 26—Leaving in its wake death toll of at least

ten, and property damage expected to total millions of dollars, a tropical coast line. Rain fell in cloudburst proportions during the gale. The full force of the hurricane on the shore victims were drowned by huge tidal waves that rose before an 85-mile an O'Connor, but the storm made itself hour gale to engulf low-lying coastal felt as far away as Sabini Pass.

official employment bureau. Preference is given to members of the Fascist party. If business falls off, an employer cannot reduce the number of his employees without incurring liability for onerous liquidation payments to his employees proportional to their length of service. All conditions of employment are controlled by collective contracts in which the government always has the decisive vote. No unprofitable industry may be discontinued without the consent of the state.

Every trade and every industry has its own Chamber of Commerce, or syndicate. They are all under strict state control. A business man is free to join or not, but, whether he becomes a member or not, his business is controlled by the syndicate of his craft, and he must pay his dues. Thus, in effect, membership is compulsory. A corporative inspectorate, with quasi-police power, supervises the execution of all economic legislation.

Thus, in Italy, both labor and capital, under a managed economy, have lost their freedom. There is no longer free labor or free capital. Both have been swallowed up in the "corporative state."

For Fat Women — And Men, Too
Read It — Please.

"I have been taking Kruschen Salts for nearly a year for my health, and for high blood pressure and rheumatism and it helped both. My blood pressure was as high as 290 when I started to take Kruschen. I weighed 255 and now I weigh 214 that is losing 41 lbs., in about nine months and I feel fine. Wouldn't you go without Kruschen Salts in the house?" Mrs. W. Eckoff, Saginaw, Mich.

Besides melting away ugly, excess fat Kruschen constantly keeps the bowels regular and free from waste that is always apt to poison the system.

Fat folks should give Kruschen a month's trial—it never disappoints—you'll feel so much better after taking one inexpensive jar which you can get at Hoffman's Store or any drugstore in the world—keeps you cooler in hot weather.—(Adv.)

WASH OUT
15 MILES OF
KIDNEY TUBES

Win Back Pep... Vigor... Vitality
Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep you healthy.

If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and vitality, getting up nights, lumbago, swollen feet and ankles, rheumatic pains and dizziness. If kidneys don't empty 3 pints every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS... a doctor's prescription... which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.

But don't take chances with strong drugs or so-called "kidney cures" that claim to fix you up in 15 minutes, for they may seriously injure and irritate delicate tissues. Insist on DOAN'S PILLS... the old reliable relief that contains no "dope" or habit-forming drugs. Be sure you get DOAN'S PILLS at your druggist. © 1934, Foster-Milburn Co.

Frankfurters Lend Themselves Nicely To Summer Menu

Request recipes have accumulated in a neat little pile on my desk, so today I think we shall devote our column to the answering of these. Mrs. Morrison asks whether or not we should not class frankfurters among cold weather foods. I think many of us are apt to do this, but in so doing I think we are mistaken, for frankfurters lend themselves very nicely to summer menus, and I'm giving you below, Mrs. Morrison, a recipe which I am sure will appeal to the summer appetite.

Summer Salad

6 Frankfurters—cooked, chilled and sliced
1 cupful shredded cabbage
½ cupful chopped sweet pickle
1 cupful cooked diced potatoes
2 hard cooked eggs—chopped
3 teaspoonfuls minced onion
Mayonnaise
Salt and pepper to taste.

Make as many bread boats as needed for individual servings, either toasted or plain. Mix all ingredients together and apportion a serving to each bread boat. Garnish with pickle, hard cooked egg or just a sprig of parsley.

Apricot Sherbet

(For Miss L. E. Weiss)
1 cupful apricot juice
½ cupful apricot pulp
4 tablespoonfuls sugar
1 teaspoonful gelatin
½ cupful water
2 tablespoonfuls lemon juice
2 egg whites—stiffly beaten.

Soak gelatin in two tablespoonfuls of the water. Combine remaining water, apricot juice and sugar. Bring to boil and cook for three minutes. Add the apricot pulp and lemon juice and pour into freezing unit and chill for one hour, then beat with rotary egg beater. Return to refrigerator until it begins to freeze and then beat again and fold in stiffly beaten egg whites. Return to refrigerator until ready to serve.

Teed Fruit Cocktail

(For Mrs. Anna Weldie)
Use equal parts of pineapple, peach, pear and apricot and a small bottle of maraschino cherries. Dice all the

fruit, reserving some cherries for garnishing. Combine fruit juices, pour over the fruits and place in covered bowl. Sweeten to taste. Chill thoroughly before serving.

Mecha Marlow

(For Miss Alice Wellner)
1 cup strong coffee
15 marshmallows
1 square unsweetened chocolate
½ teaspoonful salt
½ cupful chopped nut meats
1 cupful whipped cream.

Melt chocolate in double boiler together with marshmallows and when melted add the coffee and salt. Cook mixture and when slightly thickened add the whipped cream and nuts. Pour into tray of mechanical refrigerator and place in freezing compartment.

EXPECT LARGE CROWD AT GAME TONIGHT

The largest crowd of the season is expected on Leedom's field tonight as the A. O. H. and Bristol A. A. team vie for second half honors. At the present time the A. A. is leading but a victory for the Hibs will put them almost on even terms again.

Mulholland has won six games and lost one while the Hibs have a record of four and two. The A's have played one more game than the Big Green. A win for Bristol will almost clinch the second half for that club.

Wilson Holland will do the twirling for Bristol while it is most likely that Ralph Keller will do the mound chores for the Hibs.

In the other Lower Bucks County League game, Hulmeville will be the guest of Parkland.

"Vanities" Show Was Stage Hit; Now at The Grand

"Murder at the Vanities," the Paramount film adapted from Earl Carroll's stage hit, and which combines, for the first time, a brilliant musical show and a murder mystery, comes tonight and Friday to the Grand Theatre.

Paramount brought Carroll to Hollywood to supervise the screen production, and he took eleven of his famous New York beauties to Hollywood to appear in the film. After he arrived he then picked seven Hollywood girls to be with his eleven, and the eighteen are featured with Carl Brisson, Victor McLaglen, Jack Oakie, Kitty Carlisle, Duke Ellington and his famous orchestra, Dorothy Stickney and Gertrude Michael.

The film, directed by Mitchell Leisen, opens with the premiere of an elaborate musical show. While girls are dancing and singing, and while the audience is in tune with the frivolity of the evening, a mysterious murder takes place. Victor McLaglen, detective pal of Oakie, the theatre's press agent, is called and he is no sooner in the theatre than a second and more mysterious murder is committed.

The musical show is permitted to proceed, and the film audience sees, out front, all of the production numbers, while, backstage, the mystery is solved by the final curtain.

Joseph Ferry, Pond street, is quite ill with an attack of influenza.

CALL GAME AT END OF FIFTH IN HULMEVILLE

The benefit game played at Hulmeville last night was called at the end of the fifth inning with the Bruce All-Stars leading the Black All-Stars, 7-0. The game can not be listed as a complete affair because the home team did not receive their fifth bat. A large crowd was present to see the Bruce-men rip off four runs in the first and added three more in the second off the hurling of Howard Black.

Youngest Township in Bucks County Lays Claim To Fame Thru Famous 'Ringing Rocks'

Continued from Page 1

John Pursell, who died there in 1808. A stone addition was built about 1800 and another smaller addition added by Brice M. Pursell in 1853. This property was recently owned by Sheriff Horace E. Gwinner, of Bucks County, who disposed of it to the present occupant, Lieut. Niels Drust-rup, about five years ago.

Bridgeton has two flourishing fraternal organizations, the Knights of the Golden Eagle, Lodge No. 239, and

the Ladies of the Golden Eagle, Bridgeton Temple No. 207.

The first church services on record in the community were conducted by the Rev. John R. Wilcox, pastor of the Lutheran congregation at Riegelsville, Pa., in 1851, in a schoolhouse to 12 or 14 worshippers. After the third service there, he was advised that a better territory would be found farther down the river and farther back into the country. On September 14 of the same year he preached in Calvin's schoolhouse, and continued to preach there every other Sunday. Being encouraged by the increasing attendance, a movement was soon under way to build a church in which to worship. An acre of ground was given by George Root on which to erect the church, and in conjunction with members of the German Reformed denomination, the cornerstone for a union church was laid on May 31, 1852, the church being dedicated on November 29 of the same year. This church was rebuilt in 1893. The two denominations continue to worship in this edifice on alternate Sundays. The Rev. Charles L. Mogel, of Ferndale, Pa., is the pastor of the Lutheran congregation, and the Rev. John W. Childs, of Riegelsville, Pa., pastor of the Reformed congregation.

The famous "Ringing Rocks" are located about 1½ miles west of the town. On August 22, 1918, this bed of rocks, a tract of seven acres and eight perches in size, was presented to the Bucks County Historical Society by Abel B. Haring, of Frenchtown, N. J.

These rocks belong to the triassic period, and consist of ingenious trap rocks forced up into their place as intrusive masses or through the rocks to the surface under great heat and under tremendous pressure as in the cases of lava flows. This triassic belt extends across New Jersey from the Hudson, through Eastern Pennsylvania and down into Maryland, paralleling, roughly, the mountain ranges to the westward.

In this belt in Pennsylvania there are seven fields where the rocks have "ringing properties." Of these three are in Bucks County: The Ringing Rocks of Bridgeton Township; Stony Garden in Haycock Township, and Rocky Valley in Springfield Township.

When rocks of this type are struck with a hammer or other metallic object, they give out a bell-like sound, the tones varying according to their size and qualities. Some are decidedly more musical than others and some do not ring at all.

Evidence that this section in the Mesozoic age some 14,000,000 years ago was the abode of the Dinosaur, was confirmed last year through a discovery made by Russell S. Paetzell.

He found in the Lodi hills nearby, a fragment of rock in which was distinctly imprinted the heel and five toes of some prehistoric animal, believed to be this large reptile.

Where the first school in the township stood is not on record. However, it is known that at one time a schoolhouse was located on the place now owned by Lieutenant Neils Drust-rup, just east of the dwelling. At the present time, there are three schools in Bridgeton Township, the "little red schoolhouse" in the village, known as the "Bridgeton Grammar School," and two one-room schools located on what is known as the "hill," and are known as the "Chestnut Ridge School," and the "New Union School."

Miss Cora Dalrymple, of Milford, N. J., who teaches the first four grades of the Bridgeton School, has taught here 22 years. Miss Harriett Miller teaches the last four grades and has also served the school many years. The Chestnut Ridge School, constructed of brick that were made in the vicinity at what was known as John Houseworth's brick yard, was built in 1864, and is still in a good state of preservation. Jacob Wismer, 84 years old, who was born in a log cabin on the present site of his home at "the Mine Springs," helped haul the brick to the site. Miss Bessie S. Sigatoos is teacher at this school.

Many years ago there was a school in the vicinity of Mr. Wismer's home known as the "Mine Spring School." A 99-year lease on this old school property has long since expired and the site has reverted back to the heirs of the original owners. New Union School was built about 1868, at the time the Mine Spring School was vacated. Mrs. Mary B. Hilbert is teacher at this school, located near the Ringing Rocks, and it is a model one-room school. The township has an alert Board of Education composed of Neils Drust-rup, president; James Thompson, vice president; Harold E. Brown, treasurer; Alvin J. Sigatoos, and Wallace J. Growney, secretary.

Numbered among its most progressive citizens is Lieutenant Neils Drust-rup, U. S. Navy retired. Mr. Drust-rup saw 30 years active service and during the World War, had many thrilling experiences in convoy service. His son, Ensign Norman Drust-rup, graduated from the Naval Academy at Annapolis, last year, and is now assigned to the U. S. S. Salt Lake City.

Den Stenken, another newcomer, an artist of note, recently erected a studio home in the hills back of Bridgeton.

Mrs. Pemberton B. Minster, Pine Grove, has been spending a week in Ocean City, N. J., as guest of Mr. and Mrs. Foster Minster, Stonehurst. Mr. Minster week-ended at the resort. Miss Anna Foster, Mill street, also spent a week in Ocean City, N. J.

Morrisville Girl, 6, Bitten By Rat While Asleep

MORRISVILLE, July 26—While asleep in bed at her home yesterday, Florence Freeman, six years old, daughter of Mr. and Mrs. Benjamin Freeman, of 57 North Pennsylvania avenue, was attacked and bitten by a rat. She received two bites on the right leg and one on the left foot.

Other members of the family heard the child screaming and hurried to her bed. The rodent had disappeared by that time. The victim was given first aid treatment and later taken to Mercer Hospital, Trenton, for further treatment. The Freeman family lives on the first floor of the Morrisville address.

Harrisburg, July 26—A severe hail and electrical storm swept central Pennsylvania yesterday afternoon leaving several thousand dollars of damage in its wake. Communication and transportation facilities interrupted by the snapping of several telephone poles and other electrical disturbances, were returned to normal today. Several barns were destroyed by fire resulting from the lightning.

An Attractive Aquatic Ace

By BURNLEY

AMONG the most notable of the sport competitions featuring the current week end is the women's national outdoor swimming championships, which are being held at Rouge Park, Detroit, and which will feature the usual galaxy of stellar mermaids.

Mrs. Eleanor Holm Jarrett, Lenore Kight, Olive McKean, A. Bridges and others will monopolize the spotlight in the swimming events, while standing above the crowd among the divers are Mrs. Dorothy Poynton Hill and her bitter rival, Katherine Rawls.

Perhaps the most remarkable of the current swimming champions, Mrs. Eleanor Holm Jarrett is also one of the most unusual sports personalities.

She has held more than twenty-eight swimming records at one time, is the current Olympic and national backstroke queen, and regained her medley title during the indoor championships last spring.

Eleanor is unquestionably one of the prettiest girls ever to reach athletic stardom. A dainty brunette, five-foot two, she was offered a part in the Follies by the late Florenz Ziegfeld, but turned it down in order to point for the Olympics.

Mrs. Jarrett was the only woman Olympian in 1932 to draw a bid from Hollywood, and did several hits in the movies, only to break her film contract in order to compete in the outdoor nationals the following summer.

She is married to Art Jarrett, well-known singer and movie star, and they are among the most popular couples in Hollywood.

No national swimming meet, is complete unless the backstroke beauty breaks a record or two, so you may confidently expect Eleanor to explode a few more marks at Detroit.

"What will we have to go with it?"

IT'S comparatively simple to choose the meat dish for a meal. Roast beef, baked ham, chops, or chicken are always welcome. But what should be served with the meat to prevent monotony—that's the question.

Of course you can turn to the cook-books for suggestions. For other timely ideas — food suggestions that are in season and within your price range—turn to the pages of your daily newspaper. There you will find tasty, colorful fresh vegetables and fruits displayed; appetizing variety in canned and packaged foods; delicious desserts that are easy to make; crispy healthful breakfast cereals, beverages that are appropriate for both young and old.

As a matter of fact you'll be pleasantly surprised at the variety of foods offered in this newspaper. By reading the advertisements before you shop, you will be better able to plan interesting meals.
